

Summary

Mission-driven Data and Product leader with 10 years of experience designing internal tools and data products for nonprofit and humanitarian organizations. Aligns engineering, program, and leadership stakeholders around shared goals in high-stakes environments.

Leverages in-depth design, narrative order, UX, and project management principles from a prior career as an award-winning Creative Director (*Figma, Canva, Adobe Creative Cloud*).

Skilled at developing and aligning data systems to capture complex, nuanced measurement frameworks with constrained resources. Experienced leveraging premium platforms while streamlining conflicting features (*Tableau Prep, Salesforce, Blackbaud, SQL, Databricks*).

Creates dashboards, visualizations, and products tailored to specific user profiles and problem statements, emphasizing clear narrative paths, rigorous analysis, and continuous user feedback (*Tableau, Excel, Jira, ArcGIS, Helm, Salesforce*).

Maintains product ownership across levels by prioritizing relationships with data entry stakeholders and focusing on training and reference products (*Cornerstone LMS*).

Relevant Work Experience

Americares

Senior Manager: Analytics and Data Products current employee

- Product owner for internal applications supporting impact reporting, geolocation analysis, and program oversight across humanitarian response; informing resource allocation, prioritization, and operational decisions.
- Defined product roadmaps and requirements in partnership with engineering, analytics, and Programs teams, balancing data quality with real-world constraints.
- Designed and tested user workflows to support non-technical users operating in low-resourced, high-pressure environments.
- Led iterative UAT and adoption efforts to ensure tools were trusted, efficient, and integrated into a regular cadence of operational decision-making.

Community Solutions

Strategy Lead: Analytics and Data Products Nov 2022-May 2024

- Led development of internal Tableau and Salesforce products providing nationwide visibility into homelessness trends, enabling leadership to make informed strategic decisions and influencing policy at the federal level.
- Created engaging training tools that standardized data definitions across 80+ communities, reducing ambiguity and improving internal data fluency.

The Bail Project

Senior Data Insights Manager September 2021-Nov 2022

- Converted static reports into real-time Salesforce dashboards for first-ever longitudinal, real-time views on impact.

YMCA NYC Association Office

Director of Research and Analytics February 2021-September 2021

- Created real-time Tableau maps tracking branch-level Covid-19 data and led UAT for Salesforce CRM launch across 20+ branches.

Verve Records

Creative Director 1994-1999

- Directed 200+ annual releases and managed creative teams and budgets during a label renaissance recognized with multiple AIGA awards and Grammy nominations.
